Spring Free - Firm

EMMA DIAMOND WITH THE POWER OF GRAPHITE.

The Emma Diamond Degree[®] Cool Technology ingeniously utilises the high thermal conductivity of graphite to bring down the body temperature quickly and permanently to an ideal deep-sleep level. Users benefit from hour 1 by getting up to 10% more deep sleep which means a perceptibly higher quality of sleep.

The Diamond Firm mattress offers outstanding comfort and support with adaptive body contouring.

- Ideal for sleepers who prefer a mattress that gently contours to their body shape
- Temperature regulating Diamond Degree[®] Graphite foam for optimised, cooler and deeper sleep
- Adaptive visco-elastic foam for precise pressure relief
- Zoned HRX foam for optimal body support
- Rolled & Vacuum packed for a hassle-free delivery
- Premium cover with handles which is fully removeable and washable up to 40°C
- Available in Single, Small Double, Double, King and Super King

EMMA DIAMOND WITH THE POWER OF GRAPHITE.

The Emma Diamond Degree[®] Cool Technology ingeniously utilises the high thermal conductivity of graphite to bring down the body temperature quickly and permanently to an ideal deep-sleep level. Users benefit from hour 1 by getting up to 10% more deep sleep which means a perceptibly higher quality of sleep.

The Diamond Hybrid mattress offers outstanding comfort and support with a feeling of movement and bounce.

- Ideal for sleepers who prefer a traditional mattress with pocket springs
- Temperature regulating Diamond Degree[®] Graphite foam for optimised, cooler and deeper sleep
- Adaptive Comfort foam with core cut for precise pressure relief
- Three zone pocket spring core for superb mobility
- HRX foam for optimal body support
- Rolled & Vacuum packed for a hassle-free delivery
- Premium cover with handles which is fully removeable and washable up to 40°C
- Suitable for use with all bed frames
- Available in Single, Small Double, Double, King and Super King
