Proudly British

Andrena was established by my parents, Kenneth and Marina Anderson, in 1973. Their goal was to create beautiful furniture, manufactured to last a lifetime and beyond - an ethos we still stand by today.

Initially making reproduction style furniture, the business has evolved from a small factory in a former chicken shed in Nazeing, to making contemporary style furniture in the state-of-the-art manufacturing facility we have today. But our commitment to manufacturing furniture here in the UK, and the quality and service this allows us to provide, remains the same.

Gary Anderson - Managing Director

AB397 Loom Chair
50cm x 58cm x 94cm

It's all in the detail

Beautifully simple, our design team have incorporated elegant curves and profiles to give the Albury collection a unique appearance and style. The tactile wooden handles have been skilfully blended into the structure of each door and drawer.

High quality soft close hinges and drawer runners are used for smooth and effortless operation. Display cabinets feature adjustable glass shelves and energy efficient LED lighting.

Timbers and veneers are carefully selected to achieve the closest possible grain matching to create the very best overall appearance.

All of this is backed by our award winning customer service and lifetime manufacturing guarantee from a long established, British family business you can trust.

The choice is yours

Any Albury piece can be polished in one of our seven standard finishes. There are thirty fabric choices for your new dining chairs. If, however, you are looking for something different then why not take advantage of our bespoke making service? This can be anything from a small size change, a special colour or your own fabric, right through to a piece made to your very own specification and design.
