Dining room functionality

Original Danish design

Our furniture is based on ideas of simplicity, functionality and great details. One of the great details is that we only use sustainable wood. Another is our commitment to the original trade.

Throughout the years, Skovby has educated more than 250 men and women within the field of furniture production. With an inclusive staff policy, a flexible senior policy and a constant flow of around 10 apprentices, we carry on our core values while also investing in the future.

We are proud to say that we work hard and passionately each day to uphold the traditions of great Danish design. We still produce our furniture locally, in Denmark – strengthening and embracing the know-how and craftsmanship necessary for creating the ultimate Danish design pieces for our customers to enjoy for many years to come.

For more than 90 years, this has been our mission.

Third generation

Skovby's story began in 1933 in a small rural village in Denmark. Back then a talented young cabinetmaker with big dreams started a small-scale furniture production in his mother's home in Skovby. His name was Thorvald Rasmussen – and this was the beginning of what would eventually become Skovby Møbelfabrik A/S.

For Thorvald – and later his son Villy – there were many obstacles, but also many triumphs along the way, and slowly but surely the company expanded and grew. Today Skovby is owned by third generation and grandsons Preben and Jørgen Rasmussen and the furniture is still designed and produced locally – in the heart of Denmark – in Skovby, where it all began.

Introducing two new statement-making dining tables!

The new #107 and #108 dining tables: Timeless design meets supreme craftsmanship. A rectangular tabletop with subtle curves blends classic aesthetics and organic beauty for any home. Thoughtfully angled legs add a unique touch while ensuring stability.

Both tables feature Skovby's extension capability, #107 accommodating 6 to 16 people or up to 22 people if you choose table #108 – making the design perfect for dinner parties, meetings or just a morning coffee.

The perfect centerpiece: Introducing our newest round dining table design

The #128 dining table is our largest fixed top table with a diameter of 150 cm and can seat up to 9 people.

The grain of veneer on the four parts of the tabletop points towards the center of the table, which gives the tabletop an exciting expression.

The four strong legs are shaped with weak arches and fitted with black steel braces to stabilize and to create a both distinctive and resilient look.

Redefining Elegance with modern flair!

The #810 Chair is a stunning reinterpretation of the classic #64 dining chair. A new design presents a contemporary twist that's bound to captivate your senses.

Featuring a shorter backrest which embraces a modern aesthetic while preserving the classic charm of its predecessor.

Exceptional comfort

One of the most distinguishing features of the #810 Chair is its uniquely curved rear legs, a graceful departure from the conventional straight lines. This subtle curvature adds a touch of softness to an otherwise strict profile, inviting a sense of balance and harmony into your surroundings.

NEW INTRODUCTION

#820 Chair
Oak mocha lacquered & Black 0100 upholstery

Meet our new frame chair #820: The perfect balance of elegance and comfort.

With its blend of straight lines and soft curves, the design of the #820 chair is a testament to contrast and harmony - it exudes a grounded, robust presence while maintaining an unmistakable elegance and lightness that will elevate any space.

The combination of a backrest in press-moulded veneer, a framework in solid wood and the upholstered back results in a chair that is not only sturdy but also visually elegant.

Frame it!

Ergonomics are at the forefront of our design philosophy, and the #820 chair is no exception. We've taken inspiration from the gracefully embracing back of a classic wooden armchair and transformed it into a remarkably comfortable seating solution.

Expand your circle

Make room for all your loved ones with the beautiful and iconic #33 dining table.

The table is known for its unique patented extension system. A turntable under the tabletop splits the tabletop in three in one synchronous movement revealing three extension leaves stored in the base. When light pressure is applied, the extension leaves unfold and expand the circle of the tabletop to a seating capacity of 9 people.

The Skovby #33 dining table is equipped with a unique extension system. By turning the turntable under the tabletop the three leaves move synchronously to a position that makes room for the extension leaves in the base. When light pressure is applied the extension leaves unfold by means of a spring placed under the triangle in the middle of the table.

The #33 dining table can be extended from six to nine seatings.

The bestselling dining table #23 and #24 has a patented system that changes the rules for extension tables. #23 and #24 is easily the most stable and flexible on the market, and setting up for large family dinners, birthdays or surprise dinner guests is a breeze.

The unique, patented extension system is simple and easy to operate, even for one person alone. The four legs split into eight when the table is extended, which provides great support and stability along the entire tabletop. The #24 table reaches its full potential and seats up to 20 when extended with six extension leaves – three of those are included and conveniently stored under the tabletop, ready to go.

From leftover wood to beautiful design

SUSTAINABLE & STACKABLE STOOL

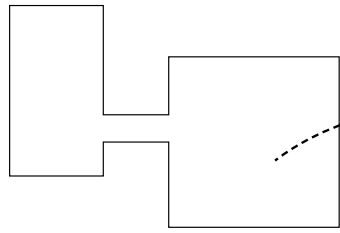

The idea and design of stool #840 sprang from pieces of leftover wood. Pieces cut from round and elliptical shaped tables are brought together to create a stackable and sustainable stool made entirely from leftover pieces from our production.

Three joined pieces of solid wood give the seat a dynamic and interesting pattern. Combined with the edgy legs the result is a unique, sculptural look.

Use the stool as extra seating, a small side table, or simply a beautiful display piece in your home.

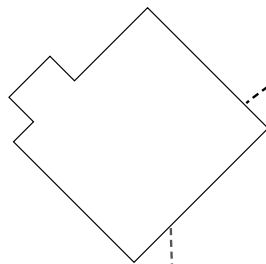

WE LOVE WOOD

Wood is a living, lasting and everchanging material. And it is the core of everything we do. We believe balance is key. And we believe in protecting and respecting nature and the forests that give life to our furniture.

That is the reason why we produce our furniture locally – in our three Danish factories.

Why we only use wood from sustainable forests and utilise all excess wood. Why we invest in energy-efficient machinery and technology. And why we strive to always create high-quality pieces that last a lifetime and can be redeployed and recycled, again and again.

Because we care.

Bringing you international design

Balancing between the traditional and unexpected, the new ceramic top is created with an international approach to crafts, simplicity and functionalism.

Extraordinary & Flexible

– in one easy sliding movement

Coffee table #244-267 is part of the new versatile coffee table series from Skovby. Mix & Match the items and choose the combination to match your home perfectly.

#244 is a rectangular table model with slightly rounded corners. The shape and size are a great match to a larger couch, without taking up too much space in your room. Combined with #267 you get an extraordinary and flexible coffee table.

Press the small switch under the coffee tabletop or use the remote control and the battery-powered electric system elevates the coffee table to just the height you want, - in one easy sliding movement.

Responsible manufacturing & saefty

Skovby want to ensure that our products are socially responsible, both in the way that they are produced alongside contributing to safe environments.

All Skovby products are produced and assembled in Denmark. We want to make sure that our products contribute towards healthier indoor climates.

By keeping all production under one roof, we achieve strong involvement and broad representation of in-terdisciplinary competencies, which are all within short-range from initial idea to finished product. Our products are developed through close interaction between cabinetmakers, technicians and the company architect.

Together they pursue to reach new heights with multi-functional and lasting designs.

We continue to aim for functional sustainable designs with a durability that will allow Skovby products to be used for many years to come.

Storage furniture is made of lacquered, soap-finished or oil-finished veneer.
Opbevaringsmøbler fremstilles i lakeret, sæbebehandlet eller oliebehandlet finer.

Solid versions of tables will come with veneered extension leaves in solid look as standard.
Massive udgaver af borde vil blive leveret med finerede tillægsplader i massivt look som standard.

Chairs are surface-treated, so oil treatment is not necessary.
Stole er overfladebehandlet, så oliebehandling kan udelades.
